

Clippal C-Bus Typical Schematics

Typical Multi Building Ethernet Backbone

Option. Include a PAC and 4-gang as a minimum in each block as a fail-safe in the event Schedule Plus, PC or Network failure. Schedule Plus is set up a master, PAC as slave, with Schedule Plus sending a heart beat to the PAC. If PAC misses 3 consecutive heartbeats the PAC will become the master. 4-button switch can be used a master override for each floor
